CAREER OBJECTIVE

Motivated Electrical and Electronics Engineering graduate with a strong foundation in circuit analysis, power systems, and problem-solving. Seeking an entry-level position in a dynamic organization to apply technical knowledge and analytical skills to innovative projects, contribute to organizational goals, and pursue continuous personal and professional growth.

AREAS OF INTEREST

Hardware-Software Integration — combining embedded/electrical systems with software and AI-driven automation to build practical, end-to-end solutions.

EDUCATION

B.E., Electrical and Electronics Engineering

P.T. Lee Chengalvaraya Naicker College of Engineering and Technology, Kanchipuram | 2023 – 2027 (Expected)

Higher Secondary Certificate (HSC)

Don Bosco Higher Secondary School | 2021 – 2023 | 70%

Secondary School Leaving Certificate (SSLC)

Sri Ramajayam Matriculation Higher Secondary School | 2020 – 2021 | Pass

INTERNSHIP EXPERIENCE

Shift Engineer (L2) — Motherson Sumi Wiring India Limited (MSWIL), Kattavakkam

Duration: 1 month (via Raja Management Service Pvt. Ltd.)

- Supervised shift-floor operations in wiring harness manufacturing, ensuring adherence to production and quality standards.
- Maintained a disciplined, sincere approach to production oversight, contributing to on-time delivery targets.

Pick and Place Operator — Dixon Technologies India Limited, Walajabad

Duration: 1 Month

- Operated and monitored pick-and-place automation equipment on the electronics assembly line.
- Gained hands-on exposure to industrial automation processes and quality control practices.

PROJECTS

Dual Axis Solar Power Tracker

- Designed a solar tracking system that adjusts panel orientation on two axes to maximize sunlight capture and energy efficiency.

Smart Traffic Management System Using Urban Congestion Data

- Developed a system concept to manage urban traffic flow and reduce congestion using real-time data-driven signal control.

NOVA – Voice-Enabled AI Desktop Assistant

- Built a voice-capable AI assistant for Windows using Python, integrating a local LLM backend (Ollama/Llama 3.2) for natural-language interaction.
- Designed modular components for voice input, response generation, and an interactive on-screen presence, with an automated setup and launch workflow.

Home Security Management System

- Designed a home security management system for real-time monitoring, automated alerts, and access control.
- Applied electrical and electronics fundamentals to integrate sensors and control logic for improved home safety and automation.

CERTIFICATIONS & MEMBERSHIPS

- IEEE Student Member — Certificate of IEEE Membership, in good standing through December 2026
- Participant — National Conference on Recent Trends in Information and Computer Communication Engineering (RTICCE-2K26), IEEE Circuits and Systems Society
- Participation Certificate — "Intelligent Humanoid Robotics & Innovation" Webinar, IEEE Robotics & Automation Society (RAS), JIT IEEE Student Branch, Jeppiaar Institute of Technology (July 2026)

TECHNICAL SKILLS

- Fundamentals of Electrical Engineering (circuit analysis, power systems)
- Simulation Tools: MATLAB, Simulink
- Embedded Systems & Robotics Automation
- Wiring Harness & Electrical Assembly Systems
- Python Programming & AI/Prompt Engineering
- IoT & Sensor-Based Automation Fundamentals

SOFT SKILLS

- Time Management and Organization
- Teamwork and Collaboration
- Problem-Solving and Adaptability
- Communication Skills and Continuous Learning

STRENGTHS

- Quickly adapts to new working environments
- Dedicated and committed to organizational growth

PERSONAL DETAILS

Date of Birth: 12.10.2005

Gender: Male

Nationality: Indian

Languages Known: English, Tamil

DECLARATION

I hereby declare that the information provided above is accurate and true to the best of my knowledge.

Date: _____

Place: _____
